

AMAZING PLACES IN FUNDY BIOSPHERE RESERVE

The Amazing Places project began in 2010 with Fundy Biosphere Reserve and is now thriving in five of Canada's UNESCO-designated biosphere reserves located in New Brunswick, Ontario, and British Columbia. The project highlights ecological and geological significant sites to inspire a new or renewed connection with nature.

Fundy Biosphere Reserve supports collaboration and partnership with communities in the beautiful Upper Bay of Fundy region to achieve a greater level of sustainability, while preserving the area's rich natural heritage.
